Recently, I attended one of your Advanced Excel and Powerpoint training program organised by CII, it was terrific and the way you explained everything in detail, it was quite insightful. I have been working on Microsoft Excel for more than a decade, however I wasn't aware of new features which could come handy for doing my routine work. I'm glad, I attended your session. Thank you...!!

Recently I had this opportunity to learn MS skills from Ritu. It was a great learning experience cause she makes things simplified to everyone's understanding and attends to all your queries with patience. I had initially registered for advanced Excel session which I couldn't catch up to, it was her concern and guidance post which I enrolled for the basic Excel class that eventually gave me a better understanding of Excel. She is a meticulous trainer with in depth knowledge of her subject and an empathetic soul. I recommend Ritu Arora to everyone who wants to learn Excel or PowerPoint. Lastly would like to wish her success in all her future endeavours.
